FINANCIAL AND COMMERCIAL

A More Cautious Tone in the Stock Market.

GOLD HIGHER.

The More Confident Feeling Continuing, but Seeking Realization.

WALL STREET,
THURSDAY, Oct. 1-6 P. M.)
The upward movement in the stock market has been arrested by gloomy stories of failures. Ex-

amining them closely they do not justify the story that has teen told on the street. The character of these failures belongs, anyhow, to the experience of the last year. It is a legacy. We have not produced in the current business of the later period a condition of affairs that might create a suspension of business activity; that is now overcome. We have to deal with leading facts, and it cannot be ignored that these facts are teaching us sound

bave maintained something of the activity of yesterday, without being so stirring, and at the me time showing a strong disposition towards activity. The general disposition of the market is that stocks have gone up, not so largely to-day as during the last few days, but yet giving evidence that although the bull movement is losing its early strength it still has a hold upon current operations. Within the last week the market has been moved up 3 per cent in the leading specu. lative shares. The evidence now is it not recede the full amount, and new movement will be based upon former advance and may carry it higher than the previous figure. We are in a peculiar condition in the stock market to day. We have not had a bull market for many months. New, to make a fine point of it, stock speculation depends upon a bull market. The bears drive away outsiders. The bulls draw them in. The present disposition on the Stock Exchange to bull the market is an indication that there is a reviving confidence on the street in respect to the future business of this country. Now, the point to be made out of this is that Wall street always discounts, and consequently it is the business of next spring that is putting up prices to-day. Of course we don't want say too much on this head at the present time. The market is not a strong one to-day, although ces that arrest present intentions being of a character that we can quickly overcome. There is a resurrectionary quality in this country that gives us confidence. The stock market during the last hour of business was weak, and at the close the lowest quotations of the day were generally current. The decline ranged from early in the day of % to 2 per cent. The most active stocks were Lake Shore, Western Union, Union Pacific, Northwestern, common; Pacific Mail, Wabash and Ohio, and Mississippi. The cline was the result of continued rumors of the failure of a large shipping and commercial house in the West India trade. The firm in question deaied their failure most positively up to the close of business. The rumors in regard to this house may have originated out of the failure of a small hipproker's firm in South street, which concern is reported to be interested in some ship property erly belonging to the large firm previously mentioned. The total transactions on the Stock Exchange to-day aggregate 300,000 shares. The pollowing table gives the sales in each share, as

\$4 87 a \$4 87%. At the close the market showed a disposition to lower rates. POREIGN ADVICES

report a steady market on the other side, closing up quiet. The rate for money on the London Stock Exchange was 3 per cent, buing now july up to the Bank rate.

This simply promises an advance in the Bank

rate at the next meeting of the Governors. In regard to American securities, Eric opened this morning at 32% and advanced to 32% a 33. There is much interest felt in this market in re-gard to the reports of the examine s who have been over here for some months. To fact that the stock has gone up on the very da, when this report was expected has encouragement in it as
to the character of that report. The fact that it
has been held back so long is an additional acsurance that the report will be favorable. These en would not be justified in withholding their Eric property. Closing prices at London to day were as follows:—Consols, money, 92%; do., ac-Count., 92% a 92%; old sixty-five bonds, 188%; 1867 bonds, 199% a 199%; new fives, 194% a 194%; ten-forty bonds, 104% a 104%; Erie, 32%. Marke

were firm to-day upon continued light dealings. We have information that the Secretary of the Treasury will to-day issue a call for \$10,000,000 more five-twenty bonds, the call being made at the request of the Rothschild syndicate, which subscribed for \$45,000,000 of the new United States Since the description of the new United States five per cent funding bonds, with the option of taking the unsold remainder. The entire amount of five-twenties thus far called, including the \$10,000,000 to-day, is \$50,000,000. The interest on the five-twenties called to-day will cease January I, 1875. The public debt statement shows a reduction of \$435,417 during the month of September. Closing prices of governments to-night were as follows:—United States currency sixes, 117% a 117%; do. do., sixes, 1881, registered, 117% a 117%; do. do., coupons, 118 a 118%; do. five-twenties, 1862, registered, 109% a 109%, ex interest; do. do., do., coupons, 112%; a 112%; do. do., toupons, 112%; a 112%; do. do., toupons, 112% a 112%; do. do., toupons, 112% a 112%; do. do., toupons, 112%; a 112%; do. do., coupons, 112%; do. do. ave per cent funding bonds, with the option of taking the unsold remainder. BAILWAY MORTGAGES.

In railroad bonds the transactions were small charge. this afternoon and prices without especial change New York Central firsts sold at 110, New York Cen tral sevens of 1876 at 100%, Union Pacific firsts a 88%, Pittsburg thirds at 102 and Albany and Sus quebanna firsts at 104. Toledo and Wabash con vertibles brought 60 and C., C. and I. C. firsts 73 the latter ex-interest. Central Pacific bonds closed at 93 a 93% and Union Pacifics 87% a 88% for firsts, 85% a 86 for land grants and 75% a 75%

for incomes. It is satisfactory to observe that money is be coming in better demand. Current loans are still without any change at 2% a 3 per cent on cal and 5% a 7% per cent on first class mercantile pa per, but the tone of the market indicates a stiffen ing of these rates, and one of the most encour aging signs in the present situation is a tendency to the hardening of money rates.

CHICAGO INSURANCE.

All the Companies of the National Board Close Their Offices.

The edict of the insurance companies composing the National Board, which was promulgated more than a week since, went into effect yesterday. The action of the various companies has been most harmonious, and on yesterday morning the Secretary of the National Board heid letters from every company in the organization pledging itself to carry out the recommendations and to withdraw all business from Chicago. Every Hartiord company, whether in or out of the organization, except the Alias, closed their Chicago agencies yesterday. In a despatch from Hartford, in the morning papers of yesterday, it was stated that the Alias company would remain. This was a telegraphic mistake, as it should have been the Alias company, which does not belong to the organization, and has concluded to go on taking risks in Chicago. The Secretary of the Board stated that he believed some measures were on foot in Chicago to bring about a caim consideration of the subject. The merchants there were evidently excited, and needed some caim men among them. There is nothing new to be done by the insurance companies until Chicago makes some advances. At present the companies at Chicago did not exist.

A strong Combination for Maintaining Uniform Rates.

A meeting of railway presidents and managers was held yesterday morning at the St. Nicholas Hotel, ex-Governor Cox, of Ohio, in the chair. Mr. J. Green acted as secretary. A meeting of railway presidents and managers was held yesterday morning at the St. Nicholas Botel, ex-Governor Cox, of Ohlo, in the chair. Mr. J. Green acted as secretary. The object of the meeting was to carry forward the action of the leading railroad men at Saratogas as reported at the time in the Herald. The attendance was large, including representatives of the Michigan Central, Lake Short, Totedo, Wahash and Western; Indianapouls, Bloomington and Western; Indianapouls, Bloomington and Western; Indianapouls, Bloomington and Western; Indianapouls, Bloomington and Western; Vandaia, Indianapouls, Bloomington and Western; Vandaia, Indianapouls, Bloomington and Western; Vandaia, Indiana, Alamin and Great Western.

The meeting, Which was private, was a brief one and in the nature of an informal expression of an informal expression of an informal expression of the rest of the companies, such as freight rates, &c. The resignation of Mr. Gill, member of the Railway Commission, was discussed at length, but no line and the state of the companies, such as freight rates, &c. The resignation of Mr. Gill, member of the Railway Commission, was discussed at length, but no line and the state of the companies, such as freight rates, &c. The resignation of Mr. Gill, member of the Railway Commission, was discussed at length, but no line and the state of the companies of the co minutes of the preceding day were read and approved. Bishop Youngs, of Florida, was then in vited to a seat beside the President of the Convention. Bishop Toter then delivered his annual address, which included not only a review and statistics of the diocese for the last year, but for the last twenty years. It is now nearly twenty years since the Bishop was elected to his high position. The diocese then included the dioceses of Albany and Long Island. During the twenty years he has confirmed 56,598 persons, ordained 357 deacons and 266 priests. Seventy-six new parishes have been laid and 110 churches dedicated. Many other churches have been eracted and occupied, but not being quite free from debt they have not been consecrated. The Bishop received 482 clergy into the diocese; dismissed to other dioceses, 508; deposed, 23; died. 102. The baptisms numbered 118,267, of whom 14,131 were adults—a remarkably large number. The communicants admitted number 31,352, and the benevolent contributions reported for nineteen years aggregate file, 514,886 21. The Bishop alinded to the growth of ritualism and its antipodes in the Church of England and in the American Protestant Episcopal Church. He deprecated the constant keeping of those subjects before the community and magnifying Individual acts to the injury of the Church.

The Missionary Society's report showed that it has thirty missionaries on its list, and that its receipts last year were \$1,33 and the expenditures \$8,106. The Society for Promoting Religion and Learning in the diocese expended \$1,400 in their work last year. The Episcopal Fund now amounts to \$110,500, most of which is invested. The receipts and report thereon, The treasurer has now in hand \$46,840. The receipts of the expenditures \$11,000. The Bishop's salary fund is too small, and a special committee was appointed to consider and report thereon. The treasurer has now in hand \$46,840. The receipts of the expenditures of the Theologica Seminary last year were \$223,842 37. The entire expenses of the City
